

Flatliner - kits

Flatliner - now available in three versions:

Flatliner Pro Plus

The fully specified kit that will facilitate steel panel repairs.

Flatliner Pro

A reduced specification kit that will facilitate steel panel repairs, and is ideal in larger or group bodyshops that already have the Flatliner Pro Plus system installed.

Flatliner Eco

This kit will facilitate both steel and alloy panel repair, also can be utilised for paintless dent removal on both alloy and steel as it uses a bonded key system rather than welding.

Flatliner has been tested and approved by the following manufacturers:

CHRYSLER

CITROËN

GM

Mercedes-Benz

PEUGEOT

RENAULT

TOYOTA
