

Plastic Rep

THE PROFESSIONAL REPAIR SYSTEM
FOR ALL TYPES OF PLASTIC

The kit comprises:

- hot-air welding unit
- fast welding nozzles
- miller for plastic grinding
- blade
- 42 assorted triangular welding rods
- 36 assorted rectangular welding rods
- 3 bicomponent adhesive cartridges
- mixing spouts
- reinforcing mesh for adhesives
- moulding film for adhesives

Replacement rods

- ▲ IMM-91201 PP black triangular 5mm welding rod
- ▲ IMM-91202 PP grey triangular 5mm welding rod
- ▲ IMM-91203 PP/EPDM black triangular 5mm welding rod
- ▲ IMM-91204 PP natural-coloured triangular 5mm welding rod
- IMM-91205 PP natural-coloured flat 8x2 mm welding rod
- ▲ IMM-91206 HDPE black triangular 5mm welding rod
- ▲ IMM-91207 PA triangular 5mm welding rod
- ▲ IMM-91208 PC natural-coloured triangular 5mm welding rod
- ▲ IMM-91209 Xenoy/PC /PTB triangular welding rod
- ▲ IMM-91210 ABS/PC/ALPHA black triangular welding rod
- ▲ IMM-91211 LDPE black triangular welding rod
- ▲ IMM-91212 W. PVC natural-coloured triangular welding rod
- IMM-91213 Xenoy/PC /PTB flat 8x2 mm welding rod
- IMM-91214 HDPE black flat 8x2 mm welding rod
- IMM-91215 PC flat 8x2 mm welding rod
- IMM-91216 ABS white flat 8x2 mm welding rod
- ▲ IMM-91217 Set of assorted triangular rods (42 pieces)
- IMM-91218 Set of assorted flat rods (36 pieces)

Plastic Rep

THE PROFESSIONAL REPAIR SYSTEM
FOR ALL TYPES OF PLASTIC

PLASTIC REPAIR SET heat welding unit

A Plastic repair system comprising a heat-welding unit and a number of chemical adhesives complete with all accessories required to carry out professional repairs. The set is supplied in a plastic case with sponge housings for all kit components.

The world of plastics is divided into two main families: thermoplastics and thermosetting plastics - plastics that mould easily and those which set if we heat them. Plastic Rep is your solution. Depending on the material and the type of repair to be carried out, you can choose to weld or glue. A high-tech hot-air welding unit equipped with a series of nozzles for fast action makes welding any kind of plastic easy, and the system is complemented by 3 bicomponent polyurethane adhesives.

PP - ABS - PP-EPDM - PA - PE - PC TEO
- PUR - PVC - XENOY - SMC

It's easy! Just select the plastic you want to repair from the display and you automatically get the ideal temperature and air flow settings.

Benefits:

- The complete, professional system for repairing all kinds of plastic.
- A heat-welding unit with user-friendly software in 14 languages which allows you to select the type of plastic to be welded and adjusts itself to the ideal welding temperature.
- 3 nozzles for fast welding enable you to weld perfectly while maintaining a constant welding pressure and temperature.
- A set of 3 bicomponent polyurethane adhesives enable you to repair plastics that cannot be welded and to reconstruct any missing pieces on all types of plastic.
- The chemical adhesives do not require adhesive Primers.
